Testing Salary Report

About Eligo's Salary Report

This salary report is a comprehensive overview of UK salaries of software testing professionals, covering the North, Midlands, London and South.

This document also includes current remuneration trends of technology professionals and other helpful stats regarding attracting testing talent, taken from the DICE Job Market Report 2017.

Future Predictions

With predicted economic growth within the UK on-going digitalisation of businesses will drive the need for specialist testing talent to work within areas of Big Data, IoT and most importantly security testing, in a skill-short market, we expect salaries to rise further in 2018.
